### New Products and Special Offers

#### [Automatic Retrieval System](#)

Densimag provides the perfect solution to high-density storage. The sophisticated degree of automation allows precise control of a high number of movements of medium to large volumes of materials. It is completely customised to the client's requirements and can be integrated with all other logistic systems of internal distribution controlled by the client's host system.

[AMH Group](#)

#### [Dock Levellers](#)

Electro/hydraulic dock leveller with hinged lip or telescopic lip. Hazard warning stripes are placed in proper anti-wear pressed seats, eliminating abrasion and making them practically everlasting.

[Armo S.p.A.](#)

#### [Data Collection System](#)

The batch system uses similar underlying architecture to the Inventris enterprise flagship package, making the system an ideal and inexpensive introduction to automated data capture, and providing an easy and effective upgrade path for more complex applications.

[Inventris Ltd.](#)

#### [Vehicle Mount Batch Terminal](#)

Belgravium's technical development team has produced a unit that is robust, maintaining performance levels in the harshest of conditions, including the sub-zero temperatures of a cold store operation. The primary use of the 7100 series terminal is as a vehicle-mounted device providing a high level of process automation.
