### Logismarket Services

Logismarket, one of the largest industrial directories in Europe, generates over five and a half million visits and more than 132,000 RFQs for the companies present in the directory. If you would like to become a part of one of the most visited internet directories, with a presence throughout all of Europe, fill out and send us the following [form](#) and we will contact you promptly to discuss price options.

### Companies of the Week

#### [A&B Stratlog](#)

#### Operative logistics consultancy.

A&B Stratlog was founded by two former logistics

platform directors, thus, merging operative power with know-how in the wholesale distribution. For us, there are no innate consultancies, we have been in charge of logistics installations throughout Europe: in France, Belgium, Italy and Spain. This irreplaceable experience and our Client/Supplier vision are the foundation of our success.

#### [Combilift Ltd.](#)

With a combined engineering experience of over 40 years, they used their knowledge and

practical experience to create the ultimate long-load material handling solution: The Combilift. Combilift is the world's first IC engine-powered all-wheel-drive multidirectional forklift. It is actually a combination of forklift and side-loader, and is highly maneuverable, very safe, very cost effective and supremely efficient.

#### [Famatec UK Ltd.](#)

The combination of experience gained in the field of manufacturing pneumatic industrial

manipulators and extensive research and development enabled FAMATEC to introduce their revolutionary new manipulator technology to the world market. Their targets are: rationalisation of the mechanical composition, manufacturing more flexible manipulators, achieving higher performance and using only the highest quality components.

### New Products and Special Offers

#### [Multi-purpose Skate, Fourmi](#)

This clever tool became an essential ally to the major retailers in the UK & abroad but also shopfitters, building contractors and industries. It allows, with minimum of effort a fast, a secure and efficient manoeuvre to move almost any loaded industrial furniture.

FOURMI offers numerous possibilities to its operators. Because it is fitted with 3 heavy duty ball bearings, shelving are manoeuvrable into any position as it has the capability to be rotated 360° about their own axis to take it in or out of any spot no matter how small and confined the space may be.

[IMGR UK](#)

#### [Side Shift De-Palletiser, DTP04](#)

By using a sliding side-shift arrangement the DTP04 can access drums from any position on the pallet, even those placed in the centre. The unit straddles the pallet and only requires access to one side of the pallet, thus allowing pallets in confined areas to be kept against the wall even when unloading. When placing the drum onto another pallet, scales or the floor, the drum can also be moved to either side using the side-shift arrangement.

[Safety Trolley Systems Ltd.](#)

#### [Shortspan Shelving, Unirack](#)

The Unirack structures have been designed and implemented to meet the needs of light to medium duty storage: they are also highly suited to the construction of single, two and even three tier structures up to a height of 8 metres with frame loadings of up to 4800kg (in USR version).

[Total Warehouse Solutions.com](#)

#### [Labels, Tags, Toner & Ribbons](#)

PEAK offers a full line of high quality labels, tags, ribbons and laser toner supplies to meet the demands of every printing system. Only PEAK can offer the internal expertise in media and supplies selection, plus the OEM products offered from partnerships with the industry's top manufacturers in the on-demand printing marketplace. PEAK is a world leader in providing labels, tags, ribbons and toners for commercial and industrial printing applications.

[PEAK Technologies](#)

### Product Highlights

#### [Isothermal Box, Boxitherm 85](#)

BOXITHERM is an isothermal container with capacity of 85 liters. The high thickness of the walls guarantee an optimal K value (0.345 W/m<sup>2</sup> K), therefore complying with ATP regulations according to which our containers are classed IR, i.e. Isothermal Reinforced. Two areas with different temperatures can be created inside the container by simply inserting a special shielded eutectic plate.

[ALEDA S.r.l.](#)

#### [Trailer, Bravo](#)

The Bravo offers optimum volume with the smallest overall dimensions by having the wheels under the body. Fitted with removable drop sides for max. flexibility. As with all Brenderup trailers, the Bravo offers an exceptionally smooth and stable tow. Available in various sizes, carrying capacities and full range of accessories.
